

# SMART WASH ▶▶

WASH SYSTEM

## ADVANTAGES

- Automatic milking machine wash control
- Selectable wash scenarios created from a comprehensive menu
- Accurate detergent dispensing saves cleaning chemical
- Expect a repeatable wash cycle every time this job is done
- Programmable day by day
- Program acid, alkali or sanitiser washes

**SmartWASH is a completely programmable automated wash system for your milking machine.**

With the versatility to manage any wash scenario, SmartWASH enables you to meet all current hygiene standards and regulations.

Developed to provide total flexibility & constant reliability the SmartWASH Controller is the driving

force behind the quality wash system. Its modern touch-screen offers a user-friendly interface.

At the touch of a button SmartWASH can be changed to suit the operator's needs and control the cleaning regimes of your milking system.
